

## Delivery trolley

### Short description:

---

Designed for express transport and delivery. Allows loading dock flow and lorry loading to be optimised, available in 3 versions :

- loading dock trolley : ideal for the sorting and loading of packages on site. (3 sides, 1 long side open, 1 spacer bar, top open, grey RAL 7011).
- Collection trolley : designed for picking up parcels. (3 sides and doors, 1 spacer bar, top open without cover, grey RAL 7011).
- Secure trolley : secures packages for sorting or collection. (sides and doors, closed top, mesh cover, red RAL 3013).

A loading dock trolley can become a collection trolley or a secure trolley... Swinging doors and a mesh cover can be mounted on all 3 versions.
