

Pallet crate 2 soleplates

Short description:

Plastic pallet crate with soleplates designed for storing and handling voluminous products. The soleplates allow reversal with a forklift.

Available in 2 dimensions 1200 x 800 mm and 1200 x 1000 mm, and can accept lids, outlet taps or stoppers for emptying.

- In high density polyethylene.
- Solid sides and base.
- Interior sides smooth for ease of cleaning and to optimise the volume.
- Temperature for use: between -20°C and +65°C.
- Easy care.
- 100% watertight: may be used for liquids.
- Suitable for use with food products.

On request: perforated version (sides and base) and set of 4 casters (2 fixed, 2 swivelling)
