Vinyl adhesive for identification plates and flags

Short description:

Marked vinyl adhesive, for adding to an identification plate or flag for aisles and shelving, or directly onto a smooth surface.

The dimensions are adapted to the dimensions of the plates and flags. The size of the characters is adapted to the maximum of their visual capacity, depending on the required number of characters and the size of the chosen support.

- White or yellow background with black lettering.
- The dimensions of the adhesives are 10 mm less than the PVC support to make mounting easier and to give you the choice of single or doubled sided marking.
