

### **Proroll 362 manual mobile shelving**

#### **Short description:**

---

Space saving and file accessibility. Storage efficiency.

A system of mobile archive shelving that allows up to 80% space savings

Associated with the office shelving Proclass, proroll is a very efficient archive storage system (boxes or hanging files).

Mobile archiving system composed of trolleys that are manually moved on rails.

The carts travel on tracks from which they cannot derail, and which are inlaid in a level floor. Security Depth 362 mm.
